

③ Update the weights for correctly and incorrectly classified points

<u>Salary</u>	<u>Credit</u>	<u>Appraisal</u>	<u>Sample weight</u>	<u>Updated weight</u>
$\leq 50K$	B	No	$\frac{1}{7} \downarrow$	0.058
$\leq 50K$	G	Yes	$\frac{1}{7} \downarrow$	0.058
$\leq 50K$	G	Yes	$\frac{1}{7} \downarrow$	0.058
$> 50K$	B	No	$\frac{1}{7} \downarrow$	0.058
$> 50K$	G	Yes	$\frac{1}{7} \downarrow$	0.058
<u>$> 50K$</u>	<u>N</u>	<u>Yes</u>	$\frac{1}{7} \uparrow$	0.349
$\leq 50K$	N	No	$\frac{1}{7} \downarrow$	0.058

for correct classified points

$$= \text{weight} * e^{-\text{performance of Stumps}}$$

$$= \frac{1}{7} * e^{-(0.896)}$$

$$= 0.058$$

For incorrect classified

$$= \text{weight} * e^{\text{performance of Stumps}}$$

$$= \frac{1}{7} * e^{0.896}$$

$$= 0.349$$
